 Ahmedabad, Gujarat, India

Career Objective

Motivated and detail-oriented Laravel Developer seeking to contribute backend development skills to a dynamic tech team. Eager to apply hands-on experience in Laravel, PHP, MySQL, and API integration to build scalable and secure web applications.

Technical Skills

- Languages & Frameworks: PHP, Laravel, HTML, CSS, JavaScript, jQuery, Bootstrap
- Databases: MySQL, SQLite
- Version Control: Git
- Tools: VS Code, XAMPP, Postman

Work Experience

Laravel Developer

LivBix Technologies, Ahmedabad (www.livbix.com) | Apr 2024 – Apr 2025

- Engineered backend logic for web applications using Laravel and MySQL.
- Integrated RESTful APIs and managed secure data transactions.
- Collaborated with frontend teams to implement responsive UI using Bootstrap and JavaScript.
- Debugged performance bottlenecks and resolved cross-browser compatibility issues.
- Managed third-party API integrations and ensured smooth deployment to production environments.

Projects

LondonLyf – E-commerce Website

 www.londonlyf.com

- Developed and maintained backend logic for a fashion retail platform.
- Managed secure user sessions, cart functionality, and order transactions.

TPI – Certificate Management System

 tpi.livbix.com

- Built modules to automate workflows from inquiry to certificate generation.
- Designed systems to handle dynamic certificate templates and secure PDF outputs.
